

Main Tasks of the project

- Steering Committee (to fix the strategy of the consortium)
- Scientific Committee (to evaluate the technologies developed in the consortium, to propose new innovative technologies)
- Coordination team (to organize cooperation between partners, project management)
- Financial Engineering (to obtain funds for the project : EC funds, government funds, private funds to match public funds)
- Education and Teaching of H2 Technologies
- Technico-economical evaluation of technologies, elaboration of commercial strategy)
- Legal problems (contracts between partners, Intellectual property rights ...)
- H2 Safety (elaboration of h2 safety rules and standards)
- Development of innovative technologies to produce H2 using solar energy (R&D actions)
- Test facilities and validation of technologies (CDER, CIEMAT, PROMES, ENEA...)

What do we have to do now ?

- To confirm the partners of the consortium
- To organize our consortium
- To prepare a proposal document for the next call of EC 7th PCRD
- To submit our proposal to EC (September ?)
- To look for other funds to match EC Funds
